

ACCELERATING EFFICIENCY AND QUALITY OF
CARE BY UTILIZING INTELLIGENT SYSTEMS

THE PROBLEM

Time and efficiency pressures on the patient/provider lifecycle has created ineffective health outcomes and an increase in cost.

\$500k/yr in Physician Lost Revenue | Decrease in Healthcare Quality & Access | 55% increased Premiums | 85% of Physicians attribute Burnout to Bureaucratic Tasks and EHR

THE SOLUTIONS

A virtual care platform that enhances the patient/provider lifecycle by eliminating wasted time and increasing revenue. By utilizing intelligent systems medical professionals can see their patients more efficiently and increase revenue by creating more effective billing events. Patients will have greater access to their medical professionals through a secure platform that will reduce wait times, cost, and improve the overall patient experience.

OUR PURPOSE

Our purpose is to challenge the norm and utilize intelligent systems to design solutions that optimize delivery of care. acceleEQ's technology and strategies eliminates wasted time, promote efficiency, reduce cost, and empowers medical providers to do what they do best, treat their patients.

OUR TEAM

acceleEQ is comprised of a team of technologists, clinicians, and healthcare leaders with over 50 years of combined experience. We have a passion to change the landscape of how healthcare is delivered.
